## New Membership Plan Is Adopted By Maui Chamber

Amendments To Constitution Are Passed Without Dissenting Vote; Larger Revenue To Be Secured

Graded dues according to a classification of membership are to be put into effect by the directors of the Maui Chamber of Commerce, the amendments to the constitution required to do so having been passed without a dissenting vote at the meeting yesterday afternoon. The directors will have to classify the members for dues according to corporations and firms and business houses, proportionate benefits received, capitalization, volume of business and other points for consideration. The dues of individuals will not be changed.

In the past individual men only were members of the Chamber. The first amendment passed yesterday provided for the admission of firms, corporations and associations as well. Heretofore an individual member though representing one of the large corporations or business houses paid the same dues as a man who was employed somewhere in a clerical capacity. Under the new plan the corporation or firm so represented will pay more than the individual but voting rights and privileges are unchanged.

In order to carry that plan into effect an amendment was passed giving power to the directors so to classify once a year and to fix annual assessments, payable in quarterly installments, according to the classes to be arranged. At present dues at \$6 a year are insufficient to meet the expenses of the organization. The new plan is expected to considerable more than double its revenue.

To put the plan into effect the various firms, corporations and business houses will have to be seen and admitted as members as such and for that purpose a membership committee is to be named by President Collins to make the requisite canvass. Thus it will probably be a month or two before the new order of things can be made operative.

Creation of the Rest House Committee as a standing committee of the Chamber was effected by another amendment that was adopted and in future other committees may be added by the President when occasions arise that may require it.

M. G. Emmans, representing the Standard Oil Company on Maui was elected to membership and a considerable amount of routine business was transacted.

## Three Funds Short Of Money And County To Apply To Territory

Once more Maui County is short of cash as result of the Territory collecting the tax money for itself and the county and remitting to the counties twice a year. There is money in the territorial treasury for Maui County but the time for its payment into the county treasuries has not arrived. So the board of supervisors will have to ask the territorial treasury to make advances.

At the meeting of the board of supervisors Wednesday, County Auditor Charles Wilcox notified the board that resources were getting low in three of the county funds and that warrants will have to be registered very soon. He recommended application for relief from the territory until Maui County shall receive its second installment of tax money for the year, probably early in December.

County Auditor Wilcox recommended that the county ask for the advance of one fifteenth of its money which it may do under the law, or \$26,000 monthly for the general and improvement funds, \$13,000 for the hospital fund and \$7,000 for the special school fund, for the months of September, October and November.

The county attorney will have the resolution ready for action by the supervisors at the meeting this afternoon.

## 1922 CANE CROP FIGURES RAISED

(ASSOCIATED PRESS)  
HONOLULU, Sept. 7.—A. M. Nowell, manager of the Sugar Factors Company, announced he had increased his estimate of the 1922 sugar crop to 537,000 tons for shipping, exclusive of the raws refined in the islands, which will bring the total to 560,000 tons. On August 31st, according to Nowell's estimate, 100,000 tons remained unmanufactured, 505,000 tons had been manufactured, and 438,600 tons had been shipped, leaving 66,400 tons on stock on hand and 12,600 tons to be harvested. At a corresponding date last year, there had been but 435,000 tons manufactured, 401,000 tons shipped, and there remained 35,000 tons on stock on hand.

## Party Of 300 On S.S. Los Angeles

Plans For Entertainment Of Visitors On Maui Begin To Take On Concrete Form; Citizen Guides Needed

Maui citizens will be wanted as guides for the visiting Angelenos when the Los Angeles Chamber of Commerce excursion reaches Kahului on the morning of Tuesday September 19. One at least will be wanted for each automobile to tell the sight seers what they are seeing on their trips and there will be about fifty cars to carry the 300 that are expected. The situation was clarified at the meeting of the Chamber of Commerce yesterday.

Letters received by Lorrin K. Smith, Maui member of the Tourist Bureau and by the secretary of the chamber gave the changed itinerary and made it clear that the automobiles are to be paid for by the steamship company and the meals also. The Chamber will have a reception committee to meet the steamer and officially to welcome the visitors and there are to be the volunteer citizen guides secured to ride with the visitors. The arrangements call for the assignment of only five visitors to a car thus leaving room for at least one such guide.

The itinerary as laid down is elastic enough so that the parties can be divided, some cars making the East Maui trip in the morning and others going to Lahaina and up Iao Valley and in the afternoon the cars that went up country in the morning will make the Lahaina and Iao runs and those who took in West Maui in the morning will see East Maui in the afternoon. Lorrin Smith said that C. E. Morris was arranging to secure the cars.

The committee that will meet the steamer will be either President Collins or vice-president, J. J. Walsh of the Chamber; L. K. Smith, member of the Tourist Bureau from Maui, Worth O. Alken (chairman), H. K. Duncan, W. A. Baldwin, Judge D. H. Case, E. R. Bevins and J. H. Gray.

It is proposed that there shall be held a luau in Kahului on the evening of the visit, the only time available for entertainment and music during the feast and perhaps dancing afterward. Tickets for the luau will be sold to Maui residents if it finally be decided to hold it as appears probable.

Arrangements for the handling of the excursionists on Maui are in charge of Lorrin K. Smith of the tourist bureau for that organization has undertaken to do so for the Los Angeles Chamber and the steamship company. This makes two distinct sets of duties but the Chamber committee will kokua Smith as far as its assistance is desired and he as a member of the committee cooperates in the other entertainment plans.

It is reported there are about 250 members of the Los Angeles Chamber and their families and about 50 others more or less under the wing of the Chamber. More definite news will be brought back from the meeting of the Tourist Bureau next Wednesday afternoon following a meeting of the Bureau to be held Tuesday.

## Brewer Plantations Will Better Camps

(ASSOCIATED PRESS)  
HONOLULU, Sept. 8.—Large expenditures for the rehabilitation of plantation labor camps sites will be undertaken by Hawaii plantations of the Brewer agency. Vice-president Horace Johnson of Brewer & Co., announced the fact this morning at the same time outlining a program for Omea, Pepeekeo, Hutchinson and Paauhau. The program covers a period of five years and involves expenditures of half a million.

Omea is authorized to expend \$50,000 this year in replacing of its sewer system, rebuilding cottages and erecting some new ones. That plantation will spend a quarter of a million in the five years period the program covers.

Extensive improvements which represent an outlay of \$50,000 are nearing completion on the property of the Hilo Sugar Co. Hutchinson is allotted \$12,000 for expenditures this fall. Much of the work now underway at camps of Hakalau and Paauhau will continue on for some time.

## ATTEMPT ASSASSINATION

(ASSOCIATED PRESS)  
PARIS, Sept. 8.—A commotion was caused today in front of the Palace Elysee, the residence of President Millerand when a revolver shot was fired wildly by an unidentified man in an automobile. An Egyptian student was arrested.

## MRS. HARDING ILL

(ASSOCIATED PRESS)  
WASHINGTON, Sept. 8.—President Harding's wife is ill and under the White House physicians care. Brigadier General Sawyer described the illness as neither serious nor alarming.

## GRANDSON OF LEE DIES

(ASSOCIATED PRESS)  
ROANOKE, Va. Sept. 7.—Colonel Robert E. Lee, a grandson of the Confederate general, died here today.

## Improved Crater Rest House Soon

Addition Proposed and Other Improvements Told Chamber Of Commerce; Report Pleases Members

Extensive enlargements and improvements to the rest house are contemplated and a thoroughly comprehensive though brief report was submitted to the Chamber of Commerce at its meeting yesterday by C. D. Laikin chairman of the Crater Rest House Committee which was given a hearty kokua by the members of the chamber.

Though there had been no formal meeting of the five members of the committee since the last meeting of the chamber, three of them, the chairman, L. K. Smith and W. A. Clark met and the working out of plans left largely with L. K. Smith. He and W. A. Clark had made a trip to the Rest House together and looked affairs over thoroughly.

Building of an extension to put the building in the form of an L is proposed. The addition would open off the present building and have a door from the outside also. It is proposed to make the new building 22 by 30 feet and divide it into two rooms, one for women and one for men with seven double bunks in each, that is accommodations for 28 in those rooms. In the old rest house at least seven double bunks would be retained and it is proposed to cut a window facing out on the crater so the outlook can be viewed without leaving the house. In the present building besides retaining some sleeping accommodations will be cooking and eating facilities.

The addition would put out on the Makawao side from the present building toward the water tank. A new cistern is also to be put in. The committee thought that about \$3000 will be required so that some \$2000 will have to be raised in addition to the amount now in the fund.

Smith has requested the board of supervisors to lend the services of County Engineer Low in the preparation of plans and Wednesday was talking with Chairman Kalama and Supervisor Fleming about making a trip of inspection up with him.

When possible a caretaker will be kept at the house but there are months of the year when that is impracticable and in January and February few parties make the trip. Such parties can arrange for the caretaker to go up with them.

## Bids For Transport Of Children Asked One School Added

Tenders of bids for the transportation of school children will be opened by Chairman and Executive Sam E. Kalama of the board of supervisors, on Thursday, September 21.

Transportation for children was furnished in four districts of Maui last school year under the first biennial appropriation by the legislature for that purpose. This year one district on Molokai will be added if sufficient funds are available.

The places from which transportation is sought are Wailuku and Kamalo to Kahului School, Molokai; from Puukohli, Honokowai and Kekua and Olowalu to Lahaina School; Kaeleku and Haou to Hana School and from Honokohau to Honokohu school.

Such transportation will exhaust all of the available funds although there are several other sections in which transportation is needed. If further transportation is to be had a campaign should be started at once and the matter agitated among the candidates for the legislature so that they may be pledged to the securing of an increased appropriation at the session of the legislature next winter.

## Herrin Massacre Under Jury Probe

(ASSOCIATED PRESS)  
MARION, Ill. Sept. 7.—The grand jury, in session here today, returned 38 additional indictments resulting from the Herrin Massacre.

Two true bills of indictment charged the murder of J. B. Shoemaker, assistant mine superintendent, and thirteen others in the Herrin woods. Another charges the murder of Robert Anderson by hanging and the fourth and last bill charges the murder of Edward Hoffman and two others in the Herrin cemetery.

## KOREAN INDEPENDENCE

(ASSOCIATED PRESS)  
HONOLULU, Sept. 8.—Dr. Syngman Rhee, a former resident of this city, president of the Republic of Korea has arrived from Washington to confer with Koreans here on the future work for nationalization and independence. In an interview given last night he said in part: "We are still as optimistic as we ever were as to our achieving our goal. It will take time and a longer time than we expected but we have met with encouragement."

## Control Of Royal Hawaiian Passes

American Factors Secures Majority Stock; New Officers Named; Branches To Continue Without Changes

(ASSOCIATED PRESS)  
HONOLULU, Sept. 6.—American Factors, Ltd., announced this morning that it has secured voting control of the stock of the Royal Hawaiian Sales Co., one of the largest automobile firms in the territory.

James T. Phillips, auditor of the Public Utilities Commission has been named manager and treasurer of the company, succeeding S. S. Paxson as manager and P. A. Swift, manager of the merchandising department of American Factors is to be president, succeeding C. W. Spitz, formerly of Kaula but now for several years a resident of Honolulu.

All former officials and directors, including S. S. Paxson, vice-president, the original promoter of the company, have resigned.

In accepting the management of the company Phillips has resigned his position as auditor of the Utilities Commission.

It was added that the branch of Royal Hawaiian Sales Company in Wailuku will be continued and that no changes in their management are contemplated.

For several weeks past it has been reported that an arrangement such as that announced in the Associated Press dispatch was contemplated so that the news will occasion little surprise in business circles. On receipt of the news dispatch Maui News notified Manager Morris of the Wailuku branch who was informed that the matter was pending but had not at that time been notified of its consummation.

That part of the announcement which said the Wailuku branch would be continued and no change was contemplated will be welcome news for Mr. and Mrs. Morris have made many friends on Maui and he has taken an active interest in community affairs.

## Princess Pleased With Success Of Her Visit To Valley Isle

Princess Elizabeth Kahanu Kalanianohe and party ended their visit to Maui and their campaign for the organization of precinct auxiliaries among Hawaiian women last evening and took the Mauna Loa to Honolulu. The Princess was well pleased at the reception given to her ideas of organization and the results achieved and delighted with the hospitable welcome she was tendered everywhere she went and with the wonderful trips that she took during her stay.

Last Monday the party started out over the Ditch Trail after spending the night at Pogeas and there were meetings held at every point along her journey. Monday at Huelo and Keane and Tuesday at Kipahulu and Hana and good audiences always greeted her. Organizations will be formed wherever she spoke.

Wednesday she returned to Central Maui on the Kilauea and held a well attended meeting in Kahului. There she was the guest of honor at a luau given at the home of Capt. E. H. Parker.

The meeting in Kahului was well attended and steps were taken toward the formation of a permanent auxiliary organization. At seven o'clock the luau was served in the Parker home with about 30 guests and was a thoroughly delightful affair. After the luau D. T. Fleming drove the Princess to Lahaina and yesterday she held meetings at Olowalu and other West Maui points.

On the Hana trip the party was lavishly entertained by the Pogeas and the Plunketts as well as in Kipahulu and Hana.

## Murdoch Resigns As Auditor For A. & B.

(ASSOCIATED PRESS)

HONOLULU, Sept. 7.—The directors of Alexander & Baldwin today announced their acceptance of the resignation of Duncan B. Murdoch as auditor of that company. Murdoch had presented his resignation immediately after the discovery of John Guild's embezzlements stating that professional ethics required such action from him.

The directors stated that the services of Murdoch will be retained in a position of responsibility and that they have the highest confidence in him. Their acceptance of his resignation was due only to his own insistence.

The directors then appointed George G. Kinney, treasurer of the Hawaiian Sugar Planters Association of Honolulu, acting auditor, until a permanent appointment could be made by the stockholders.

## Haiku Fruit Company Buys Kipahulu Plantation and Big Pine Project Is Seen

Tavares And Associates Have Land Haiku Can Secure And There Are Reported Options On Two Other Areas Which Would Give More Than 9000 Acres

Haiku Fruit and Packing Company has purchased Kipahulu plantation. Pineapple growing and canning are to be the predominant industry of that end of Maui ere long. The news may be the forerunner of the establishment of a cannery with an output of a million cases a year. Plans contemplate the uniting of practically all of the pineapple lands of the Hana district in one big enterprise and that enterprise conducted by the Haiku Fruit and Packing Company.

News of the purchase from John Fassoth of the Kipahulu plantation was brought from Hana by arrivals Wednesday. Confirmation of the report was secured from Manager A. F. Tavares of the Haiku Fruit Company yesterday morning. The consideration is reported to have been \$175,000 and Fassoth reserves the right to take off and grind the 1923 crop. The purchase is a part of the sequence of events at Hana started by the purchase by A. F. Tavares of the Drummond property.

Consolidation Foreseen  
It is reported that no further subscriptions are being accepted to the stock of the proposed new company which it was announced was to form to plant with pines and erect a cannery on the Drummond property so purchased. This leads to the belief that such property will be taken over by the Haiku Fruit and Packing Company also and combined with Kipahulu and other properties on which there are options.

Kipahulu has an area of about 5000 acres, the Drummond property is about 1650 and it is said there are other available tracts of 1500 and 1000 acres which would give a pine acreage for the Hana project of about 9000 acres.

When Senator Tavares first told of the securing of lands for pine growing and a cannery at Hana he said that John Fassoth had made a proposal for the taking in of his property as well but that it was not being considered then as it would make the project bigger than Tavares felt it desirable to attempt to swing at the time.

## King Constantine To Leave Throne; Turks Devastate Wide Area

(ASSOCIATED PRESS)  
PARIS, Sept. 8.—Rumors that King Constantine of Greece intends to abdicate the throne are current in several European capitals. The story is given color by the sudden recall of the heir apparent, George, to Athens from Bucharest.

The Greek government has resigned and Constantine has requested Nikolaos Kalogeropoulos to form a new ministry.

A column of 4000 Kemalist cavalrymen occupied the city of Baender, thirty miles from Smyrna, and is advancing toward that city. A second column of 5000 captured the city of Akhisar, 60 miles northwest of Smyrna and are moving toward Manisa.

Mustapha Kemal Pasha has been offered the rank of commander of the first column, reaching to the Aegean sea.

A report from Constantinople says the Turkish forces number 350,000 active men against the Greeks 200,000.

## BATTLE AT KILKELLY

(ASSOCIATED PRESS)  
LONDON, Sept. 7.—It is reported that unending throngs of destitute Greek and Armenian refugees are besieging the gates of Smyrna, clamoring for protracted assistance. Four railroads entering Smyrna are choked with Greek troops and the highways are black with evicted families, carrying coverings and food in exile to the Mediterranean. It is reported from Ankara that Turkish cavalry have entered the city of Bergama, fifty miles north of there.

French, British and Italian representatives at Constantinople informed the Turkish Nationalist representative there, that the Greeks were ready to evacuate Asia Minor if an immediate armistice is granted.

## BATTLE AT KILKELLY

(ASSOCIATED PRESS)  
DUBLIN, Sept. 7.—Seven irregulars were killed and five nationalists seriously wounded when a force of 60 irregulars ambushed a party of 25 nationalists who were driving from Ballyhaunis to Kilkenny in the county of Kavo. The fight lasted three hours until the nationalists rushed and captured the irregulars position.

time. Then he said the Haiku Fruit Company would be given the opportunity to secure a controlling interest in the proposed company and that it had machinery which would go a long way toward the equipping of a plant at Hana.

## Company Grows Interested

Later trips were taken by W. A. Baldwin and others of the Haiku Fruit Company to Hana and they looked the ground over thoroughly. About a month ago Harry A. Baldwin and W. N. Rolph went over on the Kilauea and looked the situation over thoroughly. Delegate Baldwin said they were much impressed with the possibilities of pine growing and that there appeared to be area sufficient to supply the fruit for a million case plant. Since then there have been reports that the Kipahulu ground would be taken in. Fassoth went over to Honolulu last week and it is reported it was then that the papers were executed.

Another report that is heard but as to which there is no confirmation, is that the Kaeleku plantation may either go in for pine growing instead of sugar or that it also may be sold. The Drummond land which was first purchased is between Kipahulu and Hana. It is reported that one of the other tracts may be added to the lands of the Haiku company.

## Climate Suitable

In Hana the weather conditions are such that there are times of drought when the cane fields suffer severely and in severe droughts it is impossible to flume. The climatic conditions are regarded as better for pineapple than cane growing. The pines produced there are reported as at least the equal if not superior to those grown in the Haiku district.

When news of the intention to start a cannery at Hana was published in Maui News it was greeted as one of great moment to Hana in particular and the whole county of Maui in general. The developments which have arisen since increase the magnitude of the project and augur the more for the greatest prosperity for all that end of the island.

## Disarmament A Back Number In League Of Nations Session

(ASSOCIATED PRESS)  
GENEVA, Sept. 7.—The economic situation of Central Europe overshadowed the disarmament question before the league of nations conference now in progress.

Baron Ishii of Japan brought up the question of disarmament briefly this morning. Other delegates talked of Austria's financial crisis. The league abandoned the idea of an international force for the guaranteeing of Austrian stability. Delegates were assured that if other plans now under consideration were carried out, that Austria would then be able to guarantee her own security.

## No Hope Retained For Entombed Men

(ASSOCIATED PRESS)  
JACKSON, Cal. Sept. 8.—S. E. Eitzen, vice-president of the Argonaut Mining company today made the first official statement, in which he despaired of reaching the 47 entombed miners. He said there was no hope for the success of the workers except that they will be able to bring out the bodies of the men.

Eitzen gave no credence to the reports that signals had been heard from the miners, but said he did believe it barely possible that the older miners in the entombed group sought the lowest levels of the mine and barricaded themselves, thereby escaping death from poisonous gases.

## BUSINESS ON REVIVAL

(ASSOCIATED PRESS)  
WASHINGTON, Sept. 8.—Despite industrial difficulties, the countries economy and progress is continuing steadily to normal according to the department of commerce survey, made here.  
No clearer demonstration could be asked to indicate the soundness of the fundamental conditions that are underlying the present business revival than the persistence with which commerce, industry and national progress recently faced serious obstacles the statement said.
