

DISTRICT QUOTA IN VICTORY LOAN 75 P. C. OF LAST

Bonds With Partial Tax
Exemption Are to Be
Urged on Buyers.

Washington, April 14.—Subscriptions will be received during the Victory Liberty loan campaign for the wholly tax-exempt notes bearing 3 3/4 per cent interest, which the treasury will issue as alternatives of the 4 1/2 per cent securities with partial tax exemption. Emphasis, however, will be laid by solicitors on the 4 1/2 notes, and an effort will be made to round up the bulk of subscriptions to these certificates which may be converted at any time into the 3 3/4 per cent notes.

A limited amount of 4 1/2 per cent notes will be available for outright sale but the treasury is not sure that all demands for cash purchases can be filled. Work has been rushed at the bureau of engraving on the bonds of small denomination, since these constitute most of the over-the-counter sales.

Three-Fourths Quota Down Line
Quotas of most communities of the Victory Liberty loan will be three-fourths of the quotas in the fourth loan, the treasury explained today, since the \$4,500,000,000 is three-fourths of the \$6,000,000,000 quota of the fourth issue. The state assigned each community and state is left, however, to the federal reserve district loan organizations and is not determined by the treasury.

Quotas of the 12 federal reserve districts are the same in percentage as in the last issue and, consequently, the amount for each will be three-fourths of the share in the fourth loan drive.

Federal reserve district quotas by percentage and amounts were announced today, as follows:

	Per- centage	Amount
New York	34 1/2	\$1,350,000,000
Chicago	14 1/2	580,000,000
Cleveland	10	400,000,000
Boston	8 1/2	330,000,000
Philadelphia	8 1/2	330,000,000
San Francisco	6 1/2	250,000,000
Richmond	4 1/2	180,000,000
St. Louis	4 1/2	180,000,000
Kansas City	4 1/2	180,000,000
Minneapolis	3 1/2	135,000,000
Dallas	2 1/2	95,000,000

Ships to Mark Progress

Secretary Glass is expected to sound the keynote for the Victory loan campaign in an address, tomorrow night, in New York.

He plans to leave Friday for a two-weeks speaking tour of the West. As a graphic illustration of the nation's subscriptions toward the goal, the navy will send three warships traveling between San Francisco and New York by way of the Panama canal during the loan campaign, the daily position of these vessels indicating the amount of subscriptions.

The first ship, the Treasury publicity bureau announced today, will leave San Francisco on April 21.

The faster the committee subscribes the faster the vessels will travel. As a Victory Liberty loan officer, will obtain from the Treasury department the day's subscription to the loan and by radio will direct the commander of the Victory ship to proceed a distance in proportion to the amount of the subscription.

The distance to be covered is more than 5,000 miles and the trip can be made easily within the 21 days of the campaign.

WILSON ANNOUNCES

precedence over questions and pressed by continual study to its final stage.

"The settlements that belong especially to the treaty with Germany will, in this way, be got out of the way at the same time that all other settlements are being brot to a complete formulation. It is realized that the this process must be followed, all the questions of the present great settlement are parts of a single whole."

BAKER LANDS; OFF FOR PARIS.

Brest, April 14.—(Havas).—Newton D. Baker, the American secretary of war, arrived in Brest at 7 o'clock this evening on board the American transport Leviathan and left an hour later for Paris.

BOHEMIAN FRONTIER REPLACES RHINE AS BIG PEACE PROBLEM

Danzig Regarded as Settled by Autonomy and Inclusion in Polish Customs Area; France Mollified by Cession of Saar Valley Coal.

London, April 14.—(British Wireless Service).—The main items of peace with Germany have been substantially agreed upon by the council of four, the Paris correspondent of the Sunday Observer understands. The only problem which they have not yet approached is that of the Bohemian border, he says. This problem, he points out, is intricate, as it raises the question as to whether a considerable number of Germans must be included in the Czecho-Slovak state. He continues:

"The question of Danzig will likely be settled by setting up a kind of autonomous state in that district, while including it in the Polish customs area."

The correspondent understands that President Wilson has definitely agreed to the proposal originated by Premier Lloyd George, which essentially consists in giving France ownership of the Saar coal mines while making the district a neutral state under the league of nations. The question of reparations and disarmament in the Rhine region, he says, seem also to have been more or less settled in their broad outlines.

Clemenceau's Real Views.
"Whether the treaty will be ready by Easter, is, of course, another question," the correspondent continues.

"The important fact is, however, that the council of four seems to have agreed on all fundamental points."

As to the western border of Germany, the correspondent states he has on good authority that Premier Clemenceau's main object has been from the first day of the conference to pave the way to a settlement that "should be entirely based on the idea of right which since 1870 has been embodied in Alsace-Lorraine."

And that the settlement of the Czecho-Slovak question should be entirely acceptable to the English-speaking democracies.

"Those who believed he would try to

themselves now, with the league of nations question and nearly all main points in the peace treaty virtually disposed of, so that the date when the enemy delegates shall be summoned to Versailles has been tentatively set. The summoning of the peace congress, as it will be called instead of peace "conference," after the enemy delegates are admitted will, according to the present understanding occur April 25.

Germans May Talk Two Weeks.

Indications are that the Germans will be given opportunity to discuss the peace terms before the congress, but that no extended discussion will be permitted, two weeks being suggested as the outside limit for the sessions to be held at Versailles. These sessions, it is now expected, will be attended by President Wilson, who is said by those close to him to feel that the progress made toward concluding the peace is such that he will be able to remain for the Versailles meeting.

France Opposed U. S. to Hold It.

It is understood also to have been largely France's fear of a military standpoint of what might happen should there be another German attack that influenced her representatives in their sustained opposition to the league of nations covenant. Their argument was that if the Monroe doctrine principle were given a European application, the effect might be that the United States might be kept from again coming to France's help in the event of a future German rebellion.

Trotsky Turns to East to Undo Defeats There

London, April 14.—Leon Trotsky, bolshevik minister of war and marine of Russia, admits defeat on the eastern front in a wireless message from Moscow which has been picked up here. The message reads:

"All our efforts now must be directed to the eastern front, which is the only front upon which we have suffered defeats. We must send old and experienced troops to that quarter. It is absolutely necessary for us to capture Ekaterinburg, Perm and Ufa."

Critics Find Plan Faulty.

To carry out this task would be no mean undertaking, say the commentators, especially those of the Echo de Paris, and Le Journal, who declare it to be simply a repetition of the Tangier regime, which, they say, has been seen to be the equivalent of "most complete inertia."

Neither are the critics satisfied with the plan for military occupation of the left bank of the Rhine, altho the methods to be followed have not been finally decided upon. It is stated in French quarters that this will be entirely in the hands of French troops, who will guard the bridgeheads and railroad junctions. In addition, it is said, a new thirty-mile neutral military zone on the right bank of the river, it is said. These two measures will be in force only 15 years, French troops being progressively withdrawn as installments of the debt are paid by Germany, as was done by that country with France in 1871.

Her Denunciation Makes a Fellow's Mouth Water

Washington, April 14.—Mrs. George Thacher Guernsey, president general of the Daughters of the American Revolution, in an address today at the opening of the 28th annual congress, asked:

"What kind of American consciousness can you grow, she added, 'in the atmosphere of sauerkraut and limburger cheese, or what can you expect of the Americanism of the man whose breath reeks of garlic?'"

THOT TO BE INSANE.

annex to France the whole or part of the left bank of the Rhine entirely misunderstood his intention," the correspondent declares. "Truly enough, when the question of the western border of Germany came before the council he asked at first for a rectification of the frontier which would amount to re-establishing the French border of 1814. To understand such a demand, it must be recalled that the comparatively small district extending between the border of 1870 and the border of 1814 includes places such as Sarrelouis, where 80 per cent of the inhabitants are said to be in favor of reunion with France."

Annexation Avoided.

"Still, as objection was raised inside the council of four that such a step might be interpreted as amounting to annexation, the French government made it clear on March 28 that it did not wish to maintain its demand if Great Britain and America deemed it objectionable. Since that date, France has confined itself to claiming that the coal of the Saar valley was due to France as reparation."

"This principle was agreed to by all parties, as it recognized that the transfer of the mines is but inadequate in compensation for the havoc deliberately wrought in northern France by the Germans."

"The solution of the Saar problem was suggested last week by Mr. Lloyd George. It consists in giving the Saar a kind of autonomy resembling that of Luxembourg. The local authorities would remain free from interference by either French or German administration, the political values of the district being, besides, guaranteed by the league of nations."

"That suggestion was carefully worked out by a sub-committee. The scheme was laid before the council of four early last week and heartily supported by Lloyd George."

Hook 'Em Cow Club of 35 Arrives from St. Paul—Wool-growers in Session.

Miles City, April 14.—The arrival of 35 members of the Hook 'Em Cow club of South St. Paul, in a special car to-night, heralded the opening of the Montana Live Stock association meeting which will be held here tomorrow and Wednesday. The meeting promises to be the largest in number of delegates ever held in Montana and at least 20 special cars of delegates are expected. The largest delegation to come being that from Great Falls which will arrive here tomorrow morning.

The chief event of the session tomorrow is expected to be the address to be made on the subject of the federal control of stockyards and cold storage cars by United States Senator J. B. Kendrick, of Wyoming.

Telegrams received today stated that near Governor S. V. Stewart, or Lieutenant Governor W. W. McDowell would be able to be here, both being detained by pressure of official business. At the convention of the Eastern Montana Woolgrowers association held here today, it was decided to join the Montana Live Stock association as a body, the sheepmen to still retain their identity as a separate organization, however.

In an address made by J. D. Holliday of the National Wool Warehouse & Storage company of Chicago, he predicted high wool prices for the coming season. Along these lines he said: "From present indications it seems certain that the price range of the Montana clip will run between 45 and 60 cents, with a tendency to an upward range in values. I can feel safe in saying that the wool growers may have no apprehension of a decided drop in the market."

Optimistic statements were also made in regard to the price of lamb by John P. Bowles of Chicago, who gave as his reasons for such assertion the fact that there would be practically no reductions of any kind in prices in the United States for some time to come, save in building materials, and that wool would remain at least stationary. He called attention to the fact that it was estimated that there were 64,000,000 less sheep in Europe than before the war and that the soldiers in the armies of the countries at war had been used to daily meals of meat which they would demand in the future.

Can Buy Back Saar.

In regard to the Saar valley. It is said that it is settled, the mines will become the absolute property of France, who will police the region. The region, however, will be administered by a sort of directorate under the auspices of the league of nations. This directorate will consist of one inhabitant of the Saar region, one Frenchman and three nominees of the league.

The regime, it is said, will last for 15 years when a plebiscite will be held and in the event that the inhabitants elect to return to Germany, that nation will be obliged to buy back the mines, paying in gold.

Critics Find Plan Faulty.

To carry out this task would be no mean undertaking, say the commentators, especially those of the Echo de Paris, and Le Journal, who declare it to be simply a repetition of the Tangier regime, which, they say, has been seen to be the equivalent of "most complete inertia."

AMERICAN HOSPITAL RAIDED.

Washington, April 14.—A Tokio dispatch to the state department reported that gendarmes took from the Severance hospital at Seoul, an institution maintained by Americans, three Korean patients suffering from gunshot wounds inflicted by the police.

A surgeon connected with the hospital protested vainly against the action of the police. The superintendent of police, when asked for an explanation, charged that the prisoners were criminals and that the action of the gendarmes in taking the men away from the hospital was in accordance with the law.

This incident took place last Thursday, the dispatch from Tokio having been delayed because of Pacific cable conditions. The state department has ordered an investigation of the incident.

KOREA BACKS PEACE APPEAL.

Philadelphia, April 14.—A petition filed by Kyn Sik Kim, the Korean delegate at the peace conference in Paris, urging the support of the allied representatives to check the massacres in Korea, is meeting with sympathetic treatment, according to a cablegram received by the Korean congress, which held its opening session here today.

The telegram reads: "Petition filed: meeting with sympathetic treatment. Tell congress I join with them in earnest prayer for its success. Only sacrifices will bring desired results. Stand firm until last Korean is killed. With this determination to win."

The congress, on its part, sent a telegram to the American Red Cross today urging assistance for the down-trodden Koreans. The telegram reads:

"Appeals from Korea have reached us for assistance from the American Red Cross for the wounded among the red-volunteers in Seoul and other cities. Medical attention refused them. Please see what you can do."

One hundred delegates, including several women, and representing the three million Koreans outside Korea are assembled in the congress here today. Their mission is to assist the independence movement in Korea and obtain freedom from Japanese rule.

Backache?
Rheumatism?

Those of us who are past middle age are prone to eat too much meat and in consequence deposit lime-salts in the arteries, veins and joints. We often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. There is no longer the slightest need of this, however, as the new prescription, "Anuric," is bound to give immediate results as it is many times more potent than lithia, in ridding the impoverished blood of its poisons by way of the kidneys. It can be obtained at almost any drug store, by simply asking for "Anuric" for kidneys or backache. It will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant arising from bed at night.

Send to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for a 10c. trial package.

MADERA, CAL.—"I recommend Doctor Pierce's Anuric very highly. I have suffered for the last three years with catarrh of the bladder, having tried every remedy I heard of but without relief. I saw Anuric advertised in the paper, and like a drowning man grabbing at a straw I thought I would try it also, which I did with great success, as it relieved me almost immediately, before I had taken all of the trial package, and having great confidence in the remedy I immediately sent to the drug store and bought a full-size package. I can say to all suffering from any disease of the kidneys or uric acid troubles, try this remedy and suffer no longer. I like to be true. I am Dr. Pierce's remedy."—S. P. HENSLEY.
